Proceedings of the Chief Commissioner in the Revenue Department (Revenue) dated 10th November 1880

(1)

Read:-

Letter from the Deputy Commissioner of the Hassan District, No. 264 of the 3rd September 1880, recommending the grant of Shraya Kauls to induce persons to bring under cultivation villages which have become depopulated owing to the famine tea.

No. 4563-72 R 812.

Dated Bangalore 10th November 1880

Order thereon:- The ground on which the Survey Department object to the grant of Shraya of Kauls on a progressive rent for the cultivation of waste lands is that the cultivating power in the Country being limited such grants must simply draw away labor from other cultivated lands, and this must be especially so in this Province in which no part can be considered to be so over-populated as to admit of the withdrawal of labor from it to other parts. The Chief Commissioner, however, thinks that an exception

cultivable lands, will induce them to exert themselves more in the cultivation of their lands thereby bringing a larger area under cultivation though there may be no addition to the number of hands employed in the cultivation.

2. The Deputy Commissioners are requested to submit a list of villages which have become depopulated and waste and of valuable garden lands which may have been abandoned, owing to the effects of the famine

exception to this rule may be well made in the case of villages which have become lie- -chirakh or depopulated, (or of garden lands which may have been abandoned) owing to the effects of the famine, and he will be prepared to sanction, in such special cases, Shrayta Kauls for the Cultivation of such lands on individual applications being submitted with full information in regard to the circumstances of the applicants and of the lands applied for. The term of the Shrayta Kauls should not exceed four years, and they should begin with at least one-fourth of the assessment in the 1st year and there should be a further condition, as proposed, that the holder or his ryots should take up their residence in the village. Free grants of wood may be sanctioned to a limited extent to enable the applicants to build houses in the village. The Chief Commissioner believes that such favorable terms, when accorded to persons who are able to

SIR,

In returning the files of papers received with your Camp No 276, dated 15th ultimo, I have the honor to state that it appears from the Amildar's report in the file that land was selected in the village in question for sandal growth but no operation was carried on. It would also appear that very few trees of ordinary kinds grow here and there on the assessed numbers. It will be an advantage to Government to give out the whole village as applied for and by so doing even the unassessed portion which will be taken up for casuarina planting will be brought under assessment after 20 years as provided in the rules contained in appendix
